

CRV CONTAINER RECYCLING PROGRAM

RECYCLING PROGRAM ASSISTANCE

Are you interested in expanding the CRV Beverage Container Recycling Program at your school, business, or community organization? By doing so, you will be helping to preserve our natural resources and keeping recyclable materials out of landfills! The San Bernardino County Solid Waste Management Division (SWMD) would love to support your school, business, or community organization in this effort by providing your establishment with recycling receptacles, supplies and educational materials at no charge through funding from CalRecycle. You can support your establishment's programs and activities with the extra funds collected through recycling your CRV containers!

ITS AS EASY AS 1-2-3!

To begin the process, please reach out to SWMD to sign-up. We will follow up and work with program participants to select the appropriate recycling receptacles to allow for you to collect and recycle CRV containers!

PROGRAM OFFERINGS

Educational Material

Liners and Gloves

Recycling Receptacles

...AND MORE!
