# Facility Diversion Rates

## Material Recovery Facility - Mixed C&D Debris

| Facility                                     | More Info   | Diversion Rate |
|--|---|----------------|
| <u><b>Advance Disposal</b></u>               | Contact Advance to confirm diversion rates for specific material. Mixed C&D material can be self-hauled or picked-up by Advance Disposal in mixed construction dumpsters (3 yd) or roll-off (10 - 40 yd). ONLY waste from projects located within Advance Disposal's service area can be self-hauled to this facility | <b>75%</b>     |
| <u><b>Burrtec - West Valley MRF</b></u>      | C&D material self-hauled or taken in a roll-off (10 - 40 yd) by Burrtec   | <b>79%</b>     |
| <u><b>Burrtec - Agua Mansa MRF</b></u>       | C&D material self-hauled or taken in a roll-off (10 - 40 yd) by Burrtec   | <b>74%</b>     |
| <u><b>CR&amp;R - Inland Regional MRF</b></u> | Mixed Construction and Demolition Debris.<br>Open to the public   | <b>60%</b>     |
| <u><b>Pomona Valley Transfer Station</b></u> | Open to the public  | <b>65%</b>     |

## Franchise Hauler Diversion Rates

| Container Size  | More Info   | Diversion Rate    |
|---|---|-------------------|
| 1.5 - 6 cy trash bin                                  | Construction materials placed into one of the size bins will be taken to the landfill by the waste hauler, nothing will be recycled.<br>*Advance Disposal provides mixed construction debris collection in these size containers. | <b>0%</b>         |
| 1.5 - 6 cy recycle bin                                | Only traditional recyclables can be placed into these bins (paper, plastic, cardboard, certain materials). Usually construction material <u>cannot</u> be recycled in these bins.   | <b>100%</b>       |
| 10 - 40 yd roll-off<br>(Burrtec serviced Valley Area) | Projects who rent one of these size bins through Burrtec within the valley area will receive a diversion for material hauled by Burrtec to the West Valley MRF (79%) or the Agua Mansa MRF (74%).                                 | <b>74% or 79%</b> |
| 10 - 40 yd roll-off<br>(Mountain and Desert Area)     | C&D material will be hauled to a County landfill or transfer station for projects that are located in the mountain or desert areas by Burrtec**, CR&R, or Big Bear Disposal.  | <b>27%</b>        |
| 10 - 40 yd roll-off<br>(Waste Management Chino Area)  | Projects who rent one of these size bins through Waste Management within the Chino area will receive 65% diversion rate because the material will be hauled by Waste Management to the Pomona Valley Transfer Station.            | <b>65%</b>        |
